+91 75730 17384 | jatanbhundiya28@gmail.com | [Linkedin](#) | [github](#)

TECHNICAL SKILLS

Languages: Python

AI : LangGraph, LangChain, RAG pipelines, scikit-learn, PyTorch, LLM Fine-Tuning

DevOps & Deployment: Docker, Kubernetes, FastApi, AWS, GitHub Actions (CI/CD).

Problem Solving: Solved 350+ data structures and algorithms challenges using Python on LeetCode

PROJECTS

Scheme Scout — AI Agentic Job & Internship Finder | *LangGraph · Docker · GitHub Actions · Supabase · Render*

Repository: [github repository](#) **Live:** [live project](#)

- Engineered an autonomous multi-agent system using LangGraph and Tavily API to search, filter, and rank real-time job listings.
- Designed a 4-stage NLP pipeline integrating Named Entity Recognition (NER), intent classification, and cross-encoder re-ranking to improve job-matching precision by 30%.
- Optimized LLM inference by integrating Groq LLaMA 3.3 70B, reducing end-to-end response while preserving high semantic accuracy.
- Containerized the stack with Docker and established a GitHub Actions CI/CD pipeline, and Langsmith for observability, automating persistent state deployments on Render.
- Built a responsive React chat UI featuring real-time token streaming to deliver low-latency, interactive agentic workflows for end users.

Classense AI — AI-Powered Attendance System | *Python · Flask · Streamlit · Face Recognition · Voice Biometrics · Supabase*

Repository: [github repository](#) **Live:** [live project](#)

- Developed a full-stack biometric attendance platform utilizing Python and Streamlit, successfully deployed live for educational institution workflows.
- Implemented multi-modal identity verification by fusing facial recognition and voice biometrics (Resemblyzer), cutting proxy attendance rates to near zero.
- Created a hands-free sequential voice roll-call system that dynamically maps spoken teacher inputs to student identities via automated voice verification.
- Architected a real-time database schema in Supabase to track student enrollment logs, instant attendance states, and biometric confidence metrics.
- Designed an analytical dashboard for instructors featuring CSV export tooling and security logs to streamline institutional record-keeping.

EDUCATION

B.E. — Electronics & Communication Engineering | Government Engineering College, Rajkot, Gujarat 2025 – 2029

SPI : 8.9
